## Career Objective

**Machine Learning** enthusiast and **BCA** student with a strong foundation in **Python** and data analysis libraries such as **Pandas**, **NumPy**, **Matplotlib**, and **Seaborn**. Skilled in building and evaluating machine learning models using **Scikit-learn**, with basic knowledge of **SQL**, **Data Structures and Algorithms**, and **Cloud Computing**. Experienced in developing and deploying web projects using **HTML**, **CSS**, **GitHub**, and **Vercel**. Passionate about applying machine learning techniques to solve real-world problems and continuously improving technical skills in data-driven technologies.

## Projects

### Personal Portfolio Website using HTML, CSS & JavaScript

Portfolio [↗](#)

- Designed and developed a personal portfolio website to showcase projects, skills, and resume.
- Built using HTML, CSS, JavaScript and includes smooth navigation, responsive layout, and interactive sections like About, Services.

### House Price Prediction using Machine Learning

Github [↗](#)

- Performed data preprocessing including handling missing values, feature selection, and train-test splitting to improve model accuracy.
- Implemented regression algorithms such as Linear Regression and Random Forest Regressor to compare model performance.
- **Tech Used:** Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn.

### Full-Stack CURD Application using Firebase

Belwiek [↗](#)

- Engineered full CRUD functionality for user profiles and posts, and integrated the Editor.js library for a modern rich-text editing experience.
- Developed an interactive UI with dynamic features including post searching, category filtering, likes, and a real-time commenting system.
- **Tech Used:** HTML, CSS, JavaScript, Firebase Database, Vercel.

### Heart Disease Prediction using Machine Learning

Github [↗](#)

- Built a machine learning-based system to predict the presence of heart disease using patient medical data.
- Implemented and compared multiple classification algorithms such as Logistic Regression, KNN, Decision Tree, Random Forest, and Support Vector Machine (SVM).
- Evaluated models using accuracy score, confusion matrix, and classification report to identify the best-performing model.
- **Tech Used:** Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn.

## Technical Skills

**Programming Languages:** Python (Intermediate), SQL (Basic), C (Basic), Java (Basic)

**Web Technologies:** HTML, CSS (Advanced), JavaScript

**Machine Learning & Data Analysis:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

**Core Concepts:** Machine Learning (Basic), Data Structures & Algorithms (Basic), Cloud Computing (Basic)

**Tools & Platforms:** Firebase Database, GitHub, Vercel

## Education

**Sri Aditya Degree College** *BCA (Bachelor of Computer Applications) — [GPA: 8.4]*

*Jun 2023 – Present*

## Certifications

**Introduction to Cybersecurity** — Cisco Networking Academy

*May 2024*

**Computer Fundamentals** — Infosys Springboard

*May 2024*

**Programming Essentials in C** — Cisco Networking Academy

*Jun 2025*

**Python Essentials 1** — Cisco Networking Academy

*May 2025*

**Career Essentials in Software** — Microsoft and LinkedIn

*Jan 2026*

**Python (Basic)** — HackerRank

## Positions of Responsibility

Internal College Events

*Event Coordinator*

- Planned and managed internal college competitions – PPTs, quizzes, talent shows, and cultural events.
- Designed QR-based digital invitations for 2024 & 2025 events to streamline participation and communication.
